Junior Software Engineer - Yepeng Zhu

+44 7900218816 me@yepengzhu.com Linkedin | GitHub | Portfolio | UK, London

Education

University of Nottingham **Nottingham, UK**

MSc in Advanced Computer Science (Merit, 62.56) *Sep 2023 – Dec 2024*

Beijing Union University **Beijing, China**

Bachelor of Engineering in Software Engineering (83.44) *Sep 2019 – Jun 2023*

Work Experience

Spinnr Tech Ltd **London, UK**

Backend Engineer, Permanent ***Jul 2025 – Present***

- Developed and maintained RESTful APIs using **Node.js** and **Lua**; implemented core backend transaction workflows with idempotency verification using **Go**. Integrated Redis and **PostgreSQL** for caching and storage, applied AES/DES/MD5 for data security, and designed structured logging and error-handling systems for debugging. Tested APIs using Postman and coordinated with PMs using Trello-based Kanban workflows.

Everbridge, Inc **Beijing, China**

Software Development Engineer in Test, Intern ***Sep 2022 – Mar 2023***

- Tested web and mobile apps; maintained accurate defect and test-case logs in Jira; executed 500 manual test cases per release and automated 200 test cases with **Python** Selenium, achieved a 35% reduction in testing time; contributed to delivering 31 new releases.

Project Experience

Automated Searching & Booking Script For U.S. Visa Interview Slots - *Python (Flask)* [Code]

- Finding user needs from daily life, built a Python automation script with Selenium to monitor and auto-reschedule U.S. visa appointment slots in real-time.
- Delivered the MVP within 2 days, serving over 50 users and generating £2,000+ revenue within 2 weeks. Planning to build a web or browser extension to serve more people in the future.

Crypto Transaction Platform Web Development - *JavaScript / React.js / Node.js*

- Developed a full-stack crypto transaction platform using React.js (frontend) and Node.js (backend), integrating SQL for data storage. Designed responsive UI with Bootstrap and implemented RESTful APIs for seamless data communication in checking crypto prices, achieving smooth user experiences.

Certification

- **AWS Certified Solutions Architect – Associate.** **Certificate:** [Link]
- **The Complete Full-Stack Web Development Bootcamp (Udemy).** **Certificate:** [Link]
- **Python Data Structures & Algorithms (Udemy).** **Code:** [Link] **Certificate:** [Link]

Skills & Hobbies

Programming Language: Python, JavaScript (ES6), TypeScript, PHP, C/C++, Java, Go, Lua, HTML5, CSS.

Relational Database: PostgreSQL, MySQL. **NoSQL:** MongoDB, DynamoDB.

Frameworks: React.js, Node.js, Express.js, EJS, jQuery, Flask, Selenium, Bootstrap.

Tools / Tech: Git, AWS (EC2, ALB, Route 53, S3, Lambda), Cursor, Jira, Docker, Kubernetes, CI/CD.

Hobbies: Exploring new places, outdoor activities (skiing and hiking), collecting funny jokes.
