Joey (Yepeng) Zhu

me@yepengzhu.com Linkedin | GitHub | Portfolio | UK, London

Education

University of Nottingham **Nottingham, UK**

MSc in Advanced Computer Science (Merit Award) *Sep 2023 – Dec 2024*

Beijing Union University **Beijing, China**

Bachelor of Engineering in Software Engineering (Top 5%) *Sep 2019 – Jun 2023*

Work Experience

Spinnr Tech Ltd **London, UK**

Backend Engineer ***Jul 2025 – Present***

• Developed scalable RESTful APIs (Node.js, Lua) and core transaction workflows with idempotency verification (Go).

• Integrated Redis/PostgreSQL, applied encryption, and designed structured logging for robust debugging.

Everbridge, Inc **Beijing, China**

Software Development Engineer in Test ***Sep 2022 – Mar 2023***

• Automated 200+ test cases via Python/Selenium and executed 500+ manual tests per release, reducing testing time by 35% across 31 successful releases.

Project Experience

Joey OS: Serverless Web Desktop & Interactive Portfolio - *Next.js, AWS, Redis, WebSockets, LLM*

• **Fullstack & Observability:** Architected an OS-style SPA with Next.js/Tailwind. Deployed an event-driven AWS backend (API Gateway, Python Lambda) featuring a real-time monitor that aggregates DynamoDB/Redis telemetry.

• **Event-Driven Real-Time Live Chat:** Built a bidirectional live chat system integrating a web frontend with the Telegram API. Bypassed inefficient HTTP polling via Webhooks and Pusher WebSockets, achieving sub-second message delivery.

• **AI Agent & Security:** Integrated DeepSeek LLM as a context-aware resume assistant. Secured the REST API against malicious abuse and prompt injection via IP-based rate limiting using Upstash Serverless Redis.

Automated Searching & Booking Script For U.S. Visa Interview Slots – *Python* [Code]

• Engineered a Python/Selenium script to continuously monitor U.S. visa portals and instantly secure early appointment slots.

• Delivered the MVP within 2 days, serving over 50 users and generating £2,000+ revenue within 2 weeks.

Skills

• **Programming Language:** Python, JavaScript (ES6), TypeScript, PHP, C/C++, Java, Go, Lua, HTML5, CSS

• **Frameworks:** React.js, Node.js, Express.js, EJS, jQuery, Flask, Selenium, Bootstrap

• **Tools/Tech:** Git, AWS (EC2, ALB, Route 53, S3, Lambda), WebSockets, Redis, Serverless Architecture, Tailwind CSS, LLM Integration, Cursor, Jira, Docker, Kubernetes, CI/CD

• **Relational Database:** PostgreSQL, MySQL

• **NoSQL:** MongoDB, DynamoDB

Certification

• **AWS Certified Solutions Architect – Associate** **Certificate:** [Link]
